Subject: Interested in interview regarding Pavillion

Dear Mr. Mylott

My name is Kaitlyn Watts and I am a graduate student at The University of Wyoming. I am conducting research for my master's thesis on the relationship between people's perception of an environmental conflict and the strategies they use to persuade public policy. The case study that I am using to further investigate this issue is the conflict in Pavillion, WY over hydraulic fracturing and the potential for water contamination.

I understand that you have had a degree of involvement in this issues, and I would be interested in hearing about your perspective. I am conducting interviews of all actors involved in this conflict to gain a sense of the multiple perspectives involved. Would you have the time and be willing to share your perspective on this issue in an interview?

Please feel free to contact me via email or phone number, which ever is most convenient for you.

I look forward to hearing from you.

Sincerely,

Kaitlyn Watts
